Summer 2019 For 3, 4 and 5 Year Old Children

June 17-August 9

9:00-1:00

SESSION 1:

June 17 - June 28

MONTESSORI 101

with Tori Bacigalupo &
TBD

Come join us as we explore the many "wonders" of the Montessori curriculum! This session will be an introduction/refresher to Montessori materials. Beginning with the basics, we will have many opportunities to practice "grace and courtesy", explore the many wonderful possibilities of the sensorial materials, and do lots of "practical life"; spooning, tongs, sponging, sweeping, dusting, folding, scrubbing, and sorting. It is an excellent opportunity for new students to learn how our classroom works, and for returning students to shine as leaders in the classroom.

SESSION 3:

July 15 - July 26

LET'S GO TO THE BEACH

with Christina Norman &
Roz Willis

Well, figuratively speaking! What's more fun than water and sand? What will you pack to take to the beach? What will you see there? Animals, water, sand, sun...we'll explore it all. Crab walking too, of course! Come join us for some hot weather fun!

SESSION 2:

July 1 - July 12

EXPLORING BUGS

with Jennifer Clark &
Roz Willis

Join us for some fun with bugs! We will learn about spiders, ladybugs and a bunch of other creepy crawlers. We'll be making mud play dough, bug slime and some beautiful insect art! Come explore and learn with us!

SESSION 4:

July 29 - August 9

MONTESSORI SCIENCE

with Tori Bacigalupo & TBD

Become a young scientist! Children will have the opportunity to learn about science through hands-on activities and experiments. Our experiments will be

exciting and colorful as we watch water travel, make a rainbow jar, and see some colorful chemical reactions take place in our "magical milk" experiment!
